Corporate Info

CYBURTEK, Headquartered in the USA, has a long and distinctive pedigree providing a "vast array" of IBM mainframe skills, and technological "know how" to organizations in the USA and around the world. Primarily focused on IBM mainframe infrastructure, clients benefit from our experience, expertise and resources.

In particular, we offer a focused pool of IBM mainframe skills that you will not find anywhere else. This includes Expert Mainframe consultancy at the Journeyman Masters Level, Level3 Systems programming(MVS,VSE,VM, CICS & Subsystems), Systems Analysts & Architecture work, Senior Programmers (in a wide variety of multi-disciplined programming languages), security experts, and other senior practitioners vetted for their skills and ability, professionalism, integrity and communications.

CYBURTEK has provided expert services to clients in major industry sectors including, State Government Financial Operations, Healthcare Industries, and Aerospace industries. Our consulting approach blends unparalleled expertise with many years' of hands-on "real world" experience – possessing the proper knowledge required to deal with any complex mainframe infrastructure.

Focused on delivery, we have a solid track record on delivering on-time and within budget.

Our mission:

Provide "Expert Mainframe Technological" consultant work to deliver world-class mainframe technology solutions, and solve complex heterogeneous mainframe computing problems, mitigate risk, work smarter, and help clients achieve their technology and business objectives.

At a time of continued digital transformation, with the mainframe acting as the digital hub for so many organizations and services, CYBURTEK's mission is also to bring added value to your mainframe operations, as well as provide solutions that reduce your overall mainframe costs.

Additionally, CYBURTEK possesses strong problem determination skills in deciphering, and solving complex "pre-existing" mainframe computing problems, thereby keeping your mainframe operations up and running on a 24x7 basis.

Partial list of past clients:

- **THE BOEING COMPANY**
- **ALLIEDSIGNAL AEROSPACE**
- **SEATTLE CHILDRENS HOSPITAL**
- **VIRGINIA MASON HOSPITAL**
- **STATE OF WASHINGTON - OFFICE OF FINANCIAL MANAGEMENT**

Please Feel free to contact Us@cyburtek.com, for your Mainframe computing needs.

Thank You
